Ridden History (if applicable):

Has your mare been previously used as a ridden/competition mount? If yes, please describe:

Was schooling and ready to compete but unfortunately retired due to an accident resulting in lameness . Very trainable with a great canter and showed good technique over fences , looked to be a talented and athletic jumper .

Is the mare still suitable for ridden work: ☒ / NO If no, please describe:

For Sale as a broodmare - Vet report states "If retired, I would foresee no issues with this mare carrying a foal and to continue to do so for subsequent years. Equally, there is no evidence of any hereditary components or finding and I would have no reservations for breeding the mare in that aspect. It is my opinion however that the findings noted do not preclude the possibility of this mare successfully returning to a ridden career."
